Trademate Galvanised Conduit Couplings — Hot Dipped Steel, 20mm to 50mm (representative product images)

Product Data Sheet

Part Number: TRAEP2001C

Last updated: March 2022

Page 1/1

Coupling 20mm Galvanised

Item Code: 3019617

Part Number: TRAEP2001C

20mm heavy duty conduit coupling. Joins rigid steel conduit. Hot dipped galvanised steel fitting that is strong, durable and highly resistant to corrosion. Suitable for underground or industrial environments.

General

Unit of Measure	Each
Material	Hot Dipped Galvanised Steel

Dimensions

Nominal Diameter	20 mm
------------------	-------

Coupling 25mm Galvanised

Item Code: 3019618

Part Number: TRAEP2501C

25mm heavy duty conduit coupling. Joins rigid steel conduit. Hot dipped galvanised steel fitting that is strong, durable and highly resistant to corrosion. Suitable for underground or industrial environments.

General

Unit of Measure	Each
Material	Hot Dipped Galvanised Steel

Dimensions

Nominal Diameter	25 mm
------------------	-------

Coupling 32mm Galvanised

Item Code: 3019619

Part Number: TRAEP3201C

32mm heavy duty conduit coupling. Joins rigid steel conduit. Hot dipped galvanised steel fitting that is strong, durable and highly resistant to corrosion. Suitable for underground or industrial environments.

General

Unit of Measure	Each
Material	Hot Dipped Galvanised Steel

Dimensions

Nominal Diameter	32 mm
------------------	-------

Coupling Galvanised 40mm

Item Code: 3017974

Part Number: TRAEP4001C

40mm heavy duty conduit coupling. Joins rigid steel conduit. Hot dipped galvanised steel fitting that is strong, durable and highly resistant to corrosion. Suitable for underground or industrial environments.

General

Unit of Measure	Each
Material	Hot Dipped Galvanised Steel

Dimensions

Nominal Diameter	40 mm
------------------	-------

Coupling Galvanised 50mm

Item Code: 3017975

Part Number: TRAEP5001C

50mm heavy duty conduit coupling. Joins rigid steel conduit. Hot dipped galvanised steel fitting that is strong, durable and highly resistant to corrosion. Suitable for underground or industrial environments.

General

Unit of Measure	Each
Material	Hot Dipped Galvanised Steel

Dimensions

Nominal Diameter	50 mm
