Zirconia Flap Disc

Metal - Stainless Steel

IDEAL FOR

- STEEL ●●●●●
- STAINLESS STEEL ●●●●●
- SHEET METAL ●●●○○

SUITS

- ANGLE GRINDER

Zirconia Features

MADE IN EUROPE

Ideal for

Structural work, steel fabrication & welding

TYPE 29	ANGLE DESIGN

Application: Conical 15° angle allows for more aggressive cutting action, making this option ideal for stock removal

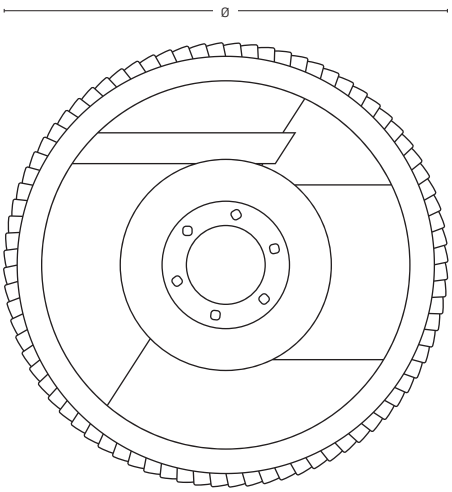

Product Features

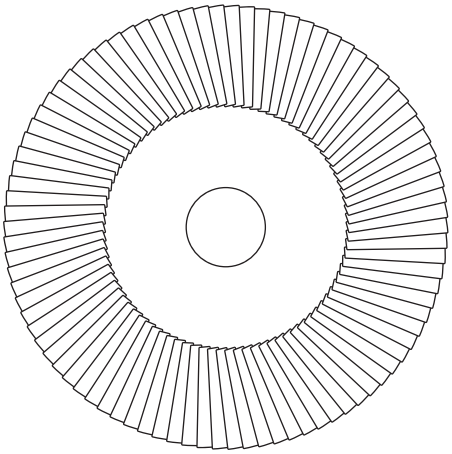

High quality, stainless steel grade flap discs

- An all-round performer on mild steel & stainless steel grinding & finishing
- Up to 30% more abrasive than other brands – medium aggressiveness
- Well-balanced for smooth, vibration free running
- Perfectly balanced disc eliminates vibration & fatigue

Zirconia Flap Disc

METAL - STAINLESS STEEL
